

Dear Homeowner,

I hope this letter finds you well.

Since our last communication there have been a couple of changes within Coillte Renewable Energy. We would like to update you on these changes and to also give you an update on the proposed Cummeennabuddoge Wind Farm Project.

In November 2021, Coillte and ESB announced the launch of a new 50:50 joint venture company, FuturEnergy Ireland. The entire portfolio of Coillte Renewable Energy wind projects has now transferred into the new company, including the proposed Cummeennabuddoge Wind Farm, a co-development with SSE Renewables.

FuturEnergy Ireland combines the State's strongest assets in onshore renewable energy development. Our ambition is to develop more than 1GW of renewable energy capacity by 2030 and make a significant contribution to Ireland's Climate Action Plan (2021). The Government's Climate Action Plan has set a challenging target of generating 80% of our nation's electricity requirements through renewable energy by 2030 and FuturEnergy Ireland is well placed to drive this ambition.

The proposed Cummeennabuddoge Wind Farm will continue to be progressed in collaboration with our co-development partner on this project, SSE Renewables. Please be assured that the project team remains the same, as do the commitments that we have made in relation to the project, and my contact details as CLO also remain unchanged.

Further information on the project can be found on the dedicated website www.cummeennabuddogewindfarm.ie.

Over the coming weeks I will call door to door to provide more information about this renewable energy project for the Cummeennabuddoge area. In the meantime, if you would like to contact me to discuss any aspect of the project or to arrange a meeting at a day and time that suits you, please find my details below.

Alternatively, you can email, call or text and request to be kept up to date on the project.

Yours sincerely,

Brendan Twomey
